Flexible Life Annuity Fair Value Assessment Summary

Our assessment confirms:

- The Flexible Life Annuity meets the needs of our target markets.
- The Flexible Life Annuity provides fair value to our target markets when considering features, services, pricing, and distribution.
- The distribution channel for the Flexible Life Annuity is appropriate.

Our assessment is based on our understanding of the current legislation as at the assessment date. Tax regulations are subject to change and will depend on your customer's personal circumstances.

Product Description

The Flexible Life Annuity is a unit-linked purchased life annuity written on a single life basis. It is designed to provide annuity payments to the customer ('Annuitant') for the Annuitant's life or until the assets within the fund have been exhausted.

As this is a unit-linked annuity where the value of units can go up as well as down, we want to ensure the level of annuity payments can continue to be supported for the Annuitant's life. Therefore, every three years we will recalculate the level of annuity payments that could be purchased with the then value of the annuity using the Annuitant's new life expectancy and inform you and your customer. This is to help you have a conversation with your customer as to their future annuity payment needs.

Product features

- To provide flexible annuity payments at different amounts and frequency intervals based upon your customer's needs.
- To allow your customer to invest additional amounts in the future.
- To provide a tax-exempt sum each year in line with current legislation which can be carried forward to future years, if not taken.
- To give you or the investment adviser (including discretionary fund managers) the opportunity to invest in a wide range of investments for your customer.
- To provide an estate planning solution, if purchased in conjunction with a LCA preference share, which results in any value left in the Flexible Life Annuity being available for your customer's beneficiaries on their death.

Target Markets

- UK tax residents aged 18 and over who have £100,000 or more to invest to generate income for life.
- Customers at any life stage that need flexible access to their investment depending on their individual circumstances. For example, allowing annuity payments to be increased or decreased depending on their individual income needs in a particular tax year.
- Customers that want an estate planning solution but require access to their investment.
- Customers who have used their ISA or pension allowances and could benefit from other ways to invest tax-efficiently.
- Customers who wish to retain control of their investment during their lifetime (and on death, have the remaining value of the Flexible Life Annuity available to provide benefits for dependants and other beneficiaries).

Not suitable for

- Non-UK tax residents, individuals aged 17 and under and/or individuals with less than £100,000 to invest.
- Customers not prepared to accept the risk of potential investment losses.
- Customers requiring immediate access to all their investment or guaranteed annuity payments for the rest of their lives.
- Customers who are solely dependent on the annuity payments provided.
- Customers who do not wish to take any annuity payments to enhance the amount, which would be available to their beneficiaries, on death.

Product Distribution

This product is designed to be distributed through financial advisers on an advised basis only. With the investments being managed by an appointed investment adviser, which maybe you, a discretionary fund manager or someone else.
